## MORGAN TROUNCES WURLTAND 26-12; PLAY AWAY FRIDAY

### Last Half Sprint Nets 20 Points In Friday's Contest

The Morgan County Blue Devils bounced back from last week's 14-13 loss at Paintsville, uncovered a tremendous second-half scoring punch here Friday afternoon to flatten a determined Wurltland eleven by 26-12.

After experiencing a wild first half that found the trailing 12-6, the Morgan lads really opened up their offense during the last two periods and punched across three touchdowns and two extra points while holding the visiting Warriors scoreless.

The West Liberty team opened the scoring column early in the first period. In four plays after taking the opening kickoff they worked to pay dirt. Quarterback Jerry Franklin made the payoff sprint on an end sweep from the 10-yard stripe. McKenzie's try for the point was stopped and Morgan led 6-0.

Wurltland tied the count at 6-6 a few plays later as a surprising fourth down pass covering 33 yards found its mark for a Wurltland touchdown. P.A.T. failed on a line plunge, leaving the count knotted at 6-6.

Wurltland's next touchdown came after seven minutes of play in the second quarter. Recovering a fumble on their own 23 yard line, the Warriors marched 77 yards for their second score. The Wurltland fullback climaxed the drive with a through plunge from the 1-yard line. The visitors again missed their extra point on a line smash but nevertheless dominated the scoring at the half 12-6.

Coach Glenn Stanley's half-time pep talk must have played a vital role in reviving the Devils for the next two periods the Morgan team displayed an almost flawless game, both offensively and defensively. Halfback Larry McKenzie tied the score at 12 all midway in the third period with a 2-yard thrust through guard. McKenzie had set up the score himself with runs of 23 and 6 yards. Lykins annexed the extra point and Morgan again had the lead 18-12.

During the final period the Blue Devils added two touchdowns on smashes of 2 and 16 yards, both by fullback Glen Lykins. The first of these two was set up by Lykins himself as he ran 45 yards with an intercepted pass to the Wurltland 2 yard line. Stacy was stopped short of the goal on his extra point attempt and Morgan led 19-12 with 6 minutes remaining.

Morgan's final touchdown came three minutes later when after halfback Richie Stacy raced 10 yards around left end to set the marker up on the Wurltland 16. Lykins patted his way around right end for the score. McKenzie added the extra point on a line play to conclude the scoring and clinch the victory for Morgan 26-12. Morgan County will travel to Catterburg Friday night for a trial against the conference leading Wildcats. Should the Devils upset the Wildcats, there would be a three-way tie in the N.E.K.C. between Catterburg, Russell and Morgan County.

**NOTICE TO VETERANS**

Roy M. Cain, field representative of the Kentucky Disabled Ex-Servicemen's Board, will be in West Liberty Monday, Nov. 1 at the court house to assist veterans and their dependents in filing claims for benefits that may be due them as a result of military service.

**In Ol' Morgan**

"It seems just like prosperity has hit you people here in Morgan county," Frank Oakley told The Courier Saturday on his first visit back to his home county in 16 years. He said he was amazed at the changes that have taken place since he left Morgan 44 years ago. "But the black surprise, it seems, is how little Licking River has got. You know, we used to run rafts down the river," he said. "But now Licking looks a lot smaller than I remember it." Mr. Oakley and his wife and son Delano came Friday and spent two days in the county, going to Mt. Sterling Saturday evening to visit an uncle, Bob Childers, and to Jeffersonville to visit an aunt, Mrs. Grace Bedford. While here he visited another aunt, Mrs. Sarah Ingram at Maytown. "My father, John Oakley, helped build the old Matthew T. Scott Junior Collegiate Institute in West Liberty, and I remember back in the old days it took two teams of horses to pull a wagon of coal through the streets of West Liberty, axle deep in the mud, and the sidewalks then were of boards." His grandfather, J. V. Oakley, was once jailer of Morgan.

## 7-PT. PROGRAM READY IF DEMS WIN CONGRESS

ALBUQUERQUE, N. M., Oct. 26.—Forecasting a Democratic majority in the next Congress, Senate Minority Leader, Lyndon B. Johnson of Texas in a speech today outlined a 7-point program that would be sponsored in Congress under Democratic leadership.

Democratic chairmen of the 17 Senate committees would form a "cabinet" to organize and carry through the program's objectives. He said it would be a program for the common man and a revolt against "the industrial East."

The seven objectives, he said, would include—

1. Cooperation with President Eisenhower on a united foreign policy.
2. Launch a gigantic development program of our natural resources including huge reclamation and conservation projects.
3. Full support for the President and the Joint Chiefs of Staff to provide an adequate defense against aggression.
4. A revised and improved farm program insuring farmers a great share in the total national income.
5. Modification and improvement of labor standards giving employee and employer the dignity to which they are entitled.
6. Permit the fullest utilization of all the facilities of free enterprise without permitting a payoff to a few rich campaign contributors.
7. A full investigation of the "shady" Dixon-Yates contract.

The Minority Leader predicted a five-seat Senate majority for the Democrats and a wider majority in the House.

**FORD FOUNDATION DIRECTOR SPEAKS**

The West Liberty Kiwanis Club at its meeting Wednesday heard Warren Robbins, supervisor of the Ford Foundation funds for advancement of education, tell of the work being done.

He said there are four teachers at Crockett school who have been given Ford fellowships for three years. They are: Mr. and Mrs. Kermit Skaggs, Arlene Wheeler and Claudia Rowland.

These teachers are college graduates and will receive a grant of \$1000 each for study in some college outside Kentucky and for travel.

Mr. Robbins said: "We do not give money to the school. We do not want to come into a school and say here are the things to do. We work with the superintendent and teachers. Money is not the answer to a good school. All the gold at Fort Knox won't make a good teacher."

An advisory committee composed of members from the Colleges and the University of Kentucky meet and discuss the projects. This is not a "cut and dried" program. A study is made of the school program, and the supervisors work with the school system.

Mr. Robbins said there are 16 counties in Kentucky represented in the program and 33 teachers are enrolled.

Mr. Robbins was introduced by Lloyd Patterson, principal of the Morgan County high school.

Dr. L. C. Long made a report to the club on the progress of the drive for \$400 for Scouting and said that \$300 had been raised so far and he felt sure the quota would be reached.

J. Blaine Nickell presented a gift to Charlie Dixon who has been a member of the club and county agent for nine years and who is leaving this week to become area director for several counties in the Home Improvement Program directed by the University of Kentucky.

Mr. Nickell spoke for the club and expressed regrets that Mr. Dixon is leaving. In response, Mr. Dixon said he had enjoyed his work with the people here and appreciated the fine cooperation he had received.

## DIABETES TESTS WILL BE MADE

"Diabetes Detection Week in Kentucky," during which a statewide campaign will be made by doctors of medicine to discover previously unknown diabetics, is set for Nov. 14 to 20, according to a proclamation issued by Gov. Lawrence W. Wetherby.

During this week, which has been set aside annually for the Kentucky State Medical Association's diabetes detection drive, hospitals and laboratories will be asked to give free urine sugar tests to all persons requesting them.

The campaign is endorsed by the Kentucky Pharmaceutical Association, the Kentucky State Dental Association, the Kentucky Hospital Association and a number of other state-wide groups.

Mr. Ralph Gullett is chairman of the drive in Morgan County.

"If everyone will take the test, we can make great strides in preventing suffering and death now due to diabetes," said Carlisle Morse, M.D., chairman of K.S.M.A.'s Committee, as he emphasized the importance of people learning whether they have diabetes or not.

"For those who know they have diabetes, it can usually be controlled so they live long, happy, normal lives."

## FOUR STREETS ARE SURFACED

Four streets in West Liberty have been paved with two inches of bituminous surfacing during the past ten days by Ruth Bros.

The hot-tar bituminous surfacing was hauled here from Ruth Brothers' hot-mix plant at Pimp.

- Broadway from Prestonsburg street to its intersection with Ky. Highway 7 at the north limits of town.
- Peddler street from Broadway to Ky.

## VOTE ON SEWER SYSTEM BEGINS

The West Liberty city council is mailing postcard questionnaires to all residents of the town to determine the wishes of the people on a proposal to build a modern sewage disposal system in the town.

More than 400 post cards are being mailed, Mayor Alvin Evans said this week. He asks that townpeople consider the question and vote their answer and mail the cards so that the council may know the majority sentiment.

The council intends to let the people decide for themselves if they want a sewage system built for the town.

The proposed project would be financed by revenue bonds to be repaid from revenue from the system, and from an increase of city taxes from 50c to 75c per \$100 of assessed property. Revenue would be obtained by a monthly charge based upon the amount of water used by patrons. The bonds would not constitute a lien against property.

## CIRCUIT COURT IS RECONVENED

Morgan circuit court resumed its session Thursday after a five-day recess and cases are set through next Wednesday. No court, however, will be held on election day Tuesday.

The case of Alvin Lee Sexton charged with shooting into a dwelling was being tried as the Courier went to press Thursday.

The case of Clyde Ward of Moon charged with rape was continued until the next term when called Thursday. Bond for Ward, who has been held in jail here since the alleged offense last August, was set at \$2,500.

## Sheep Specialist Visits Farms and Discusses Management Problems

R. C. Miller, Extension Service sheep specialist, assisted County Agent Charlie Dixon and Carl Sinclair in visits to Morgan county sheep growers last Saturday.

In a meeting at Jasper Jones' Insko, Mr. Miller inspected his equipment. He suggested that each sheep grower have adequate feeder space. Troughs should be made according to the Extension Service plans and are so designed that sheep cannot get their feet into the trough to spread parasite infestation.

Salt feeders should be kept accessible and dry. A mixture of one part phenothiazine and nine parts salt should be kept in the trough and stirred every week.

Mr. Miller advised drenching the ewes early in December to control nodular worms. He will return to the county December 6 or earlier for a meeting to demonstrate proper handling and drenching methods.

C. A. Fugate, A. B. Cecil and Mr. Wallace attended the meeting at Mr. Jones' farm. Mr. Jones had his flock of 25 ewes confined for inspection.

Feeding plans outlined by Mr. Miller call for 300 pounds of good green leafy lespedeza or alfalfa hay per ewe. He advised limited feeding of grain about a month before lambing. He said that it is best not to have the ewes fat but to have them gaining at lambing time. This will prevent pregnancy disease which frequently causes heavy losses at lambing time.

Lambing pens, made of panels three feet high and five feet long, two sections to a pen should be ready. By starting in a corner of a shed the two panels will make a pen. They should be used until they are accepted and begin to nurse. Usually about three days is long enough.

Mr. Miller later visited the flocks of Mr. Fugate and Mr. Cecil. He expressed pleasure that the ewes are doing so well. He expressed the hope that farmers would provide small grain pasture for winter and spring use.

## VOTE ON SEWER SYSTEM BEGINS

The West Liberty city council is mailing postcard questionnaires to all residents of the town to determine the wishes of the people on a proposal to build a modern sewage disposal system in the town.

More than 400 post cards are being mailed, Mayor Alvin Evans said this week. He asks that townpeople consider the question and vote their answer and mail the cards so that the council may know the majority sentiment.

The council intends to let the people decide for themselves if they want a sewage system built for the town.

The proposed project would be financed by revenue bonds to be repaid from revenue from the system, and from an increase of city taxes from 50c to 75c per \$100 of assessed property. Revenue would be obtained by a monthly charge based upon the amount of water used by patrons. The bonds would not constitute a lien against property.

## CIRCUIT COURT IS RECONVENED

Morgan circuit court resumed its session Thursday after a five-day recess and cases are set through next Wednesday. No court, however, will be held on election day Tuesday.

The case of Clyde Ward of Moon charged with rape was continued until the next term when called Thursday. Bond for Ward, who has been held in jail here since the alleged offense last August, was set at \$2,500.

William Jason Fields

## GOV. W. J. FIELDS DIES AT GRAYSON

GRAYSON, Ky., October 21—Former Governor William Jason Fields, who made famous the political slogan, "Honest Bill from Olive Hill—Never Lost and Never Will," died today. His last illness began about three weeks ago.

He was 79 and second only to A. O. Stanley, 87, as the oldest living former Kentucky governor.

Fields, a Democrat, very nearly made good his boast of never losing an election. Of nine major political races, he lost only the last. That was when he sought to return to the U. S. House of Representatives after serving as Kentucky's governor from 1923-1927.

A Mason and a Methodist, the governor had no use for dancing or strong drink. Among major legislation he proposed as governor was one to fine drunken drivers \$100 to \$500 and revoke their driver's licenses. Such punishment is now provided by law.

Fields biggest battle while he was Governor was in behalf of a proposed 75 million dollar bond issue for improvement of Kentucky's roads. The proposal took a beating at the polls. The state's financial system was revised during his term, and Morehead and Murray State Colleges were built.

Fields, a lawyer, served 13 years as a U. S. representative, from 1911 until he was elected governor. He also was a former commonwealth's attorney and was a referee for the State Workmen's Compensation Board. He was a former member of the board.

## PROTECT FARM INCOME!

UNDER REPUBLICANS JAN. 1954 \$778

### VOTE REPUBLICAN

Realized annual net income of farm operators on the basis of purchasing power equivalent of 1935-1939 dollars was \$15 higher last year under the Republicans than in 1952 under the Democrats.

Farm prices began to fall in 1951 because of the vast farm surpluses piled up by the Truman-Barkley administration. Farm prices dropped for 22 months under the Truman-Barkley administration because nothing was done to clear away surplus products. It was not until the Eisenhower farm program began to take effect that farm prices stopped falling and began to recover some lost ground. It is important to remember that of the total decline in prices during the past four years about three-fourths took place while Truman was in the White House. President Eisenhower has sponsored and the Congress has enacted a genuine farm surplus disposal program that is working. The best evidence is that farm prices are beginning to pick up and will go higher as the depressing effect of the surplus product is eliminated.

Eisenhower and John Sherman Cooper didn't forget:

- That you voted for an end to war
- That you voted for an honest Government
- That you voted for lower taxes
- That you voted for Government economy and efficiency
- That you voted for an end to the Communist threat at home

## We Plow Our Profits Back Into the South

Operating exclusively in the states of Alabama, Florida, Georgia, Kentucky and Mississippi, and with all of our properties and two-thirds of our stockholders in these five states, we are truly a Southern Institution.

And, we spend our money where we make it — in the South.

During 1953, the Company's expenditures in these southern states, for additional real estate, buildings and facilities... enlargement, repair and maintenance of present plants and equipment... and all expenses of operation, including payrolls, licenses and taxes

(excluding income taxes) — amounted to \$36,000,000.00.

For the same year, two-thirds of the Company's dividends were paid to its approximately 14,000 stockholders in the five southern states — Alabama, Florida, Georgia, Kentucky and Mississippi — which it serves.

We have hitched our wagon to a star — the ever increasing growth of the South. Our future is the future of the South. We never lose sight of this fact in making plans and expenditures.

It May Be Too Late to Wait Until 1956 to Stop Government By and For the Rich

## FACE THE FACTS

### Look to the Future with Cooper

#### No Depression At All

Mr. Barkley and his supporters last Spring tried to talk America into believing that it was in a depression, or at least a recession. It didn't materialize. Now these same politicians and office seekers are trying to convince us that conditions are terrible. Unemployment, Mr. Barkley says, is far greater than anyone will admit and the Country is on the skids. But what is the picture? An authoritative report in Nations Business Magazine for September makes these points:

1. Disposable income of the people is more than 249 billion dollars, nearly a billion and a half above last year.
2. Personal taxes are down, by nearly three and a half billion dollars.
3. The average citizen's expenditures are up this year.
4. 95% of the labor force is at work, and seasonal increases in the final three months of 1954 will increase this to nearly 100%.

These are the figures which should be kept in mind as a measuring stick when Mr. Barkley and his supporters sing their song of grief and depression, and this in spite of the fact that Mr. Cooper helped to bring about the end of the war and we are now living in peace.

#### Six Years of War Under Barkley's Regime

In one of his recent speeches Mr. Barkley seemed to be proud of the fact that there were only six years of war during the twenty years which he wielded a powerful influence in Washington. When you stop to analyze that statement, you will notice that during the time he claims to have been an outstanding leader in Washington we were at war almost one-third of the time. On the other hand, after Mr. Cooper began to wield some influence in Washington, the war was soon over and your boys were brought back home and it was no longer necessary that their blood be spilled on foreign soil.

#### Mr. Cooper Is A Friend of Veterans

Not only did Mr. Cooper enlist in the Army as a private at the age of 41 and serve overseas in General Patton's Army, but he has demonstrated his interest in the veterans of all wars by helping to obtain increases in pensions for all veterans and their widows and orphans. He understands their problems because he is one of them. On the other hand, Mr. Barkley had an opportunity to wield the powerful influence, which he and his supporters claim that he had in Washington, shortly after Mr. Roosevelt was elected President in favor of the veterans, but instead he used it against them when he had the opportunity. He voted for and gave his approval to the repeal of the Disability Allowance Act which cut off thousands of veterans of World War I from the pension rolls. His actions in that respect should be a warning to the veterans of all wars in regard to his attitude toward them.

#### Barkley Didn't Do It

In a speech which Mr. Barkley made at Ashland he said, "I never boasted I was much of an apitchee, but I helped strike out poverty and depression." The truth about the matter is that Mr. Barkley never did anything to "strike out poverty and depression" but talk about it. As a matter of fact, the most poverty stricken years burley growers have ever seen began with the election of the Congress in 1930 and continued through 1939 at a time while Mr. Barkley is supposed to have been making such a fight to "strike out poverty and depression." Take a look at the market averages during some of these years that he says he was doing so much to restore prosperity. Here are some of the tobacco averages for those years: \$8.63; \$12.39; \$10.46 and even in 1939 after nine years of successive Congresses under the leadership of Mr. Barkley tobacco averaged only \$17.39, and even in 1940 while Mr. Barkley continued to enjoy his position of leadership, corn sold at 62c per bushel, wheat at 68c per bushel and hogs at \$5.39 per hundred. Mr. Barkley says now that he is the one who should have credit for the amendment providing for a permanent support price on tobacco of 96% of parity. What was Mr. Barkley doing for the farmers of Kentucky to restore prosperity to them during all of the years mentioned above up to 1939 when he was in control in Washington? The records show that he did absolutely nothing for the farmers of the State of Kentucky. On the other hand, the record shows that Mr. Cooper is the one who actually sponsored the amendment for a permanent support price on tobacco of 90% of parity and he has been exhibiting photostatic copies of the amendment which bears his signature alone as proof that he is the originator of it.

#### Cooper Is A Friend of REA

In a letter dated October 19, 1954, sent out from Barkley headquarters, to leaders of REA an attempt was made by insinuation to discredit Mr. Cooper's record on REA. Fortunately, everyone connected with REA knows that Mr. Cooper has been one of its most ardent friends and supporters and that the money which was being held up in Washington was not being held because of an unfriendly attitude of the Administration against REA, but because of litigation here in Kentucky and in spite of that litigation Mr. Cooper got the money released. Senator Clements was there in Washington all during this controversy and not one time did he meet with a delegation from Kentucky to lend any assistance in getting this money released. But Mr. Cooper met with these delegates on several occasions and was the one responsible for the release.

#### Age and Youth

Mr. Barkley is an old man 76 years of age and according to Biblical calculation (three score and ten years) has lived out his allotted time. I am sure that we all hope Mr. Barkley will live many more years, but the laws of nature are against that. If he were elected, he would be 82 years old at the end of his term. In case of his death, who would succeed him? Would it be someone of your choice? That is a risk you would have to take, because the Governor of Kentucky would make the appointment. On the other hand, Mr. Cooper is a young man 53 years of age and in good health. Not one of his political adversaries has said ought against his ability, honesty or integrity. His record is one of undisputed loyalty and service to his country and to his people of every walk of life here in Kentucky. He is trustworthy and God-fearing. He has one of the finest voting records of any Senator in Congress. He has been honored with two short terms, but has never been privileged to serve a six year term. To make certain that you will be well represented in the United States Senate for the next six years, cast your vote on November 2nd for John Sherman Cooper.

## Which Do YOU Choose? Prosperity Or Your Sons?

King Swope, former Congressman from Kentucky and former Circuit Judge of Fayette County, spoke at a meeting in Lexington yesterday and criticized Mr. Barkley for "bragging" about high war time prices at the expense of casualty lists. Here is a portion of the write up of his speech from the Lexington Leader of October the 27th:

"Swope declared that 'decent Americans are disgusted with Truman and Barkley bragging about high prices which were supported by World War II and the Korean Expedition without either one of them expressing any concern over the casualty lists in either war.'

"Referring to the New York Herald Tribune's edition of Jan. 27, 1953, Swope said the paper carried a picture of Barkley making a speech at Kansas City, Mo., 'delivering his customary eulogium to good business, yet the same paper that carried that dispatch also carried one showing the American casualties in Korea to be 103,000 and stated that the truce negotiations were still hanging fire without anything being done or any effort being made to end this horrible and unlawful slaughter of American boys' in Korea.

"Swope said, 'About six months later at the Chicago convention, in search of delegate who did not come, Mr. Barkley again vainly blew a lusty blast on his bugle to the tune of war prosperity as the war was still on in Korea with its ever increasing casualty lists and truce negotiations still hanging fire. He makes daily the same speeches because he knows nothing else.

"The American mothers and fathers are glad that Gen. Eisenhower stopped that war like he promised to and they do not want any Barkleys, Trumans or other hypocrites starting another.

"Continuing his attack on Barkley, Democratic candidate running against Republican Sen. John Sherman Cooper in next Tuesday's senatorial election, Swope said:

"Since Truman and Barkley claim all the credit for good business then they must accept the responsibility for the slaughter of American boys in Europe, in Asia and in Truman's Korean Expedition which made possible the war orders and high prices.

Not one American mother or father lost a child, not one woman was widowed, not one child was orphaned while Herbert Hoover was president as a result of any foreign war. But under the Roosevelt-Truman-Barkley recipe for prosperity and foreign relations 216,166 were killed outright and 245,656 were wounded in World War II.

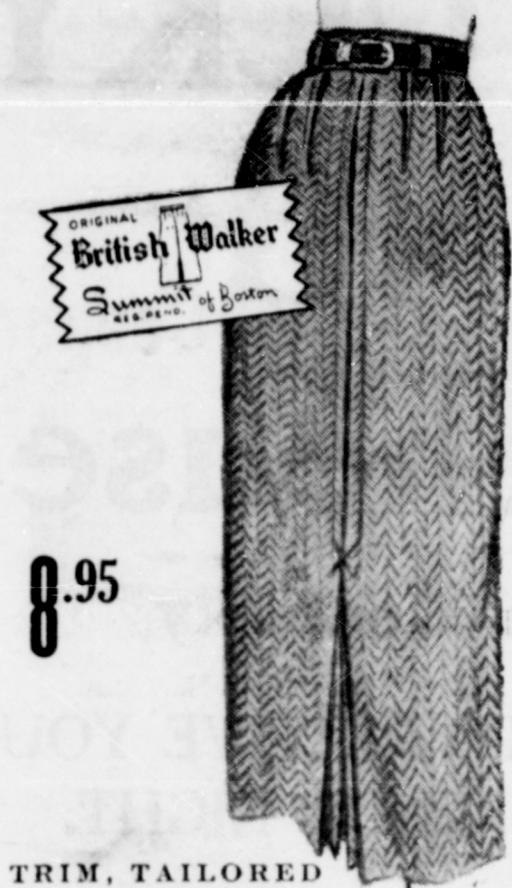

"This shows that the Roosevelt-Truman-Barkley plan for raising the price of hogs, getting rid of the unemployed and bringing good business is one and the same thing—war, and nothing but war in all its hideous aspects now and hereafter.

"Swope said, 'That is the oldest, most primitive form of economic relief known to man. Every dictator in ancient, medieval and modern history practiced it and slaughtered their surplus livestock and got rid of their unemployed men in foolish wars like Truman and Barkley of today, and we have already had too much of it.'

In another statement herein entitled Face The Facts and Look to the Future with Cooper, attention has been called to the fact that there were no high prices until the war came about.

Elder Walter Easterling was not called in the funeral, neither did he take part.

## Kentucky Tobacco Growers:

### Don't Risk Your Tobacco Program In the Hands of its Enemies

Senator Cooper, Republican nominee for the U. S. Senate, has sought to claim sole credit for the 90 percent of parity price support which you now enjoy. Yet, Mr. Cooper's own testimony before the Senate Agriculture Committee on June 24, 1948 in a hearing on the general farm bill of 1948 is an admission that 90 percent support is a Democratic measure. Here is what Mr. Cooper said in closing his remarks:

"So, my last recommendation is that if you are going to write provisions into this bill for tobacco that you simply incorporate in this bill the present provisions of the Agricultural Adjustment Act as they affect tobacco."

This is the Act passed by the Democrats in 1938 under which tobacco had enjoyed 90 percent support since 1942. When the Republican-controlled Senate Agriculture Committee rejected the proposal and the Cooper-Barkley amendment extending 90 percent support for tobacco came up in the Senate the vote was as follows:

34 Democrats voted Yes.  
36 Republicans voted No.

Senator Barkley was able to get 33 Democrats to vote with him for the amendment while Senator Cooper was able to obtain the votes of only 6 Republicans.

This vote shows the attitude of the Republican Party on the question of 90 percent support for tobacco.

**HEED THE WARNING OF THE LATE SENATOR VIRGIL CHAPMAN SOUNDED ON OCTOBER 9, 1948:**

"The leadership of the Republican Party is opposed to the federal farm program and the tobacco program in particular."

Don't take a chance. Elect Senator Barkley and a Democratic Congress. Only then can you be sure of the protection you need for your tobacco program.

## A GREAT KENTUCKIAN FOR GREATER SERVICE

In America today, only one state can boast a statesman with fifty years of experience in public service, an unswerving dedication to the rights of the people, and a world-wide reputation for vision and integrity. That state is Kentucky—and that statesman is Alben Barkley.

No man is better equipped to lead the people's fight against the "give-away government" in Washington... no man is so well qualified to represent the interests of agriculture, labor, small business and the average citizen against the Republican Party's big business administration.

### BARKLEY Believes:

You Deserve A Tax Break, Too!

During the last Presidential election, there was a lot of Republican talk about lower taxes. Promises were made to the voters... let's see how those promises were kept! The Republicans passed a tax bill, all right... but, of every dollar of tax reduction, 90c went to corporations and individuals in the high income bracket, AND LESS THAN 10c OF TAX RELIEF WENT TO THE AVERAGE CITIZEN! In other words, more than 9/10ths of the benefits came to wealthy supporters of the Republican Party!

And during the same session, when Democrats tried to increase the allowance for dependents from \$600 to \$700 (which would have meant a substantial income tax saving for the average taxpayer) 95% OF THE REPUBLICANS IN THE SENATE AND HOUSE VOTED AGAINST IT!

DON'T WAIT UNTIL 1956 TO DO SOMETHING ABOUT REPUBLICAN DOUBLE-DEALING... put Alben Barkley in the Senate NOW, to lead the fight for fair play in government!

### America Can Only Afford One Foreign Policy!

The Republican Party is in complete agreement that our nation NEEDS a foreign policy... but it is completely unable to decide WHAT KIND we need! While the Eisenhower administration pulls one way, the Republican Old Guard pulls the other... and America teeter-totters while Communist aggression flames around the world.

It is an ironic fact that President Eisenhower has had to turn to the Democratic Party for support in the fields of foreign policy and national defense. But unfortunately the Democratic Party, due to its minority position in Congress, is unable to bail out the President's boat as fast as his own party punches holes in it!

For example, Secretary Dulles' humiliation at Geneva was caused by the refusal of stubbornly isolationist GOP senators either to negotiate for peace or to threaten the use of force in Indo-China. In effect, he was sentenced to "speak loudly and carry a small twig."

REMEMBER, THE ONLY BI-PARTISAN FOREIGN POLICIES EVER DEVELOPED HAVE COME ABOUT UNDER DEMOCRATIC ADMINISTRATIONS! Don't wait till 1956 to put sanity into foreign affairs... send Alben Barkley back to the Senate to lead the fight NOW!

### A Healthy Nation Needs A Healthy Agriculture

During the first half of this year, the cash income of Kentucky farmers declined more than TWENTY MILLION DOLLARS... and, with Secretary Benson's flexible support program in the offing, economists expect even greater losses for the second half.

It's hard to remember that Eisenhower said in 1952: "The Republican Party is pledged to the sustaining of 90 per cent parity price support, and it is pledged even more than that to helping the farmer obtain FULL PARITY, 100 PER CENT PARITY."

How does that campaign pledge stand up against the Republican's record? The administration never tried for 100 per cent parity, abandoned the Democratic 90 per cent parity theory, and WRECKED THE DEMOCRATIC PROGRAM OF SOUND SUPPORTS FOR AGRICULTURE!

In the case of tobacco, the Republican parity theory would result in lower pricing by the federal graders, and consequently lower bidding by private buyers. Senator Barkley and the Democratic Party are prepared to fight this GOP starvation farm program with every means at their disposal.

Don't wait till 1956 to protect America's agriculture... for it may be too late then! Put Alben Barkley back in the Senate NOW, to lead the fight for fair farm prices!

### Protect America's Strength at Home and Abroad

Most atomic experts believe that, by 1955, the Russians will have as many atom and hydrogen bombs as we have. At that time, the advantage we have had over the Kremlin since 1946 will finally be lost, and each day thereafter will find us in a relatively worse position. Time is running out.

What has the Republican administration done during the past two years to protect our strength? The best description of its defense policy is "more bang for a buck"... Defense Department appropriations have been cut to the bone, vital services have been curtailed, research departments have been weakened or destroyed... and Defense officials have tried to lull the voters with talk about "massive retaliation."

And while America's defenses rust away, the administration has weakened our strength at home with attacks upon agriculture, public power, housing and our national resources. In fact, just about the only part of our economy that has been STRENGTHENED by the Republicans is General Motors!

Alben Barkley does not believe this is the way to make America strong. He believes in a strong defense backed by a healthy economy... complete research programs in all phases of modern warfare... adequate ground troops and sea power to back up both strategic and tactical air elements... and an adequate defense system against atomic attack.

America needs this program NOW... 1956 may be too late. Send Alben Barkley back to Washington to lead the fight for a stronger nation and a free world!

Jimmie Benton received a red ribbon and placed tenth in the same class. His 950 pound steer brought \$270.62 plus \$8 in prizes. Carroll Oldfield's Angus brought \$277.52 plus \$12 in prizes.

The members will receive about the same amount of premium money from state funds as soon as all the district shows have been held.

Other red ribbon winners included Tommy Oldfield, Jr. of White Oak; Eldon Tyra, Index, and Roger Nickell, Mize.

White ribbons were received by Tommy Brooks, Jr., Cottle; Billy Back and Jettie Back, Malone; Tommy Vest and Ella Gay Vest, Grassy Creek; Darrell Murphy, Ezell; Carroll Oldfield on his Hereford; Scottie Fugate of Grassy Creek.

**TOBACCO BURN**

Considerable barn burn was reported in late-cut tobacco in Mason county; early harvested crop cured up well.

**SET TREES NOW**

N. R. Elliott of the University of Kentucky can't see any reason for the lack of trees about farmsteads in this region where many kinds grow wild. He thinks each farm owner should set a dozen or more trees each season. And right now is the best time of the year to set them. It is all right, of course, to buy them. They will be delivered with their roots undisturbed, which almost insures their living. Trees that are growing wild can be moved if enough dirt is kept on the roots.

Tobacco in Nicholas county is considered much superior to the 1953 crops, says County Agent W. T. Straw.
